PERSONAL DETAILS

I am a charismatic and organized person, qualities I strive to apply in both my personal and professional life. I enjoy sports such as running, cycling, and basketball, having competed for my hometown team throughout my childhood and adolescence. I am passionate about nature, art, history, and architecture, and I explore my creative side through photography, capturing unique details in everyday life. I am enthusiastic about connecting with people from different cultures and learning from their worldview, building authentic connections, broadening my perspectives, and questioning my own ideals, always in search of new challenges that help me grow both technically and personally.

EDUCATION

PhD in ICT (Specializing in Data Mining) <i>University of Granada & CSIC</i>	Oct. 2026 – Present (Present) Madrid, Spain
Diploma of Expert in Advanced Machine Learning in Python <i>University of Malaga (Grade: 9.7/10)</i>	Nov. 2024 – Jun. 2025 (8 months) Malaga, Spain
MSc in Data Science and Computer Engineering <i>University of Granada (Grade: 8.93/10)</i>	Sep. 2024 – Dec. 2025 (1 year, 3 months) Granada, Spain
Professional Skills Acceleration Program <i>University of Granada (Talent Incubator)</i>	Nov. 2022 – May 2023 (7 months) Granada, Spain
BSc in Statistics (Erasmus+ Program) <i>University of Padua (Grade: 9.2/10)</i>	Sep. 2021 – Jul. 2022 (11 months) Padua, Italy
BSc in Statistics <i>University of Granada (Grade: 8.26/10)</i>	Sep. 2019 – Jun. 2023 (4 years) Granada, Spain

EXPERIENCE

PhD Researcher in Data Science and Heritage <i>Inst. Geosciences (IGEO) & Nat. Ctr. Metallurgical Res. (CENIM) - CSIC/UCM</i>	Oct. 2026 – Present (Present) Madrid, Spain
Computational architectures for managing large volumes of cultural heritage data. Machine and Deep Learning applied to computer vision and morphometric characterization. Predictive modeling to assess the durability of geomaterials and metals. Data mining and time series analysis to quantify global change risks. SQL database management to evaluate material degradation and reporting.	
Technical Support and Management Specialist in R&D&I <i>Institute for Research in Mathematics of the University of Granada (IMAG)</i>	Jul. 2026 – Sep. 2026 (3 months) Granada, Spain
Database management of scientific production (Scopus, SciVal) and research personnel. IT infrastructure maintenance, including servers, computer equipment, and videoconferencing systems. Web and intranet administration, featuring the automated room reservation system. Technical support for R&D&I and direct assistance to the institute's research groups. Institutional communication, social media management, and dissemination of scientific activities.	
Bioinformatics Developer <i>López-Neyra Institute of Parasitology and Biomedicine (IPBLN) - CSIC</i>	Apr. 2025 – Jun. 2026 (1 year, 2 months) Granada, Spain
JAE Intro ICU Fellowship at CSIC for the development of bioinformatics solutions. Design and automation of workflows for report generation using Quarto, R, HTML, and Nextflow. Integration with containers and HPC across on-premises environments and cloud platforms. Interactive data visualization through D3.js for dynamic and customizable charts. Development of an intelligent chatbot applying advanced NLP techniques (Python, JavaScript).	

SKILLS AND KNOWLEDGE

- 🚩 **Languages:** Spanish (Native), Italian (C1), English (B2), French (Basic).
- 👤 **Soft Skills:** Effective communication, Teamwork, Critical thinking, Proactivity, Leadership, Empathy, Creativity, Analytical skills, Resilience, Perseverance.
- ⚙️ **Technical Skills:** Statistics, Data mining, Artificial Intelligence, Machine Learning, Bioinformatics, Natural Language Processing, Automated report generation, Data visualization, Photography, Editing.
- 🔗 **Programming:** R, Python, C++, Bash, SQL, Mathematica, HTML, CSS, JavaScript, D3.js, LaTeX, Markdown, Mermaid, R Markdown, Quarto, Jupyter Notebooks, Pig, Impala, Git.
- 📊 **Data Science:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, OpenCV, spaCy, Regression, Classification, Clustering, Interactive visualization, Omics pipelines, Docker, Nextflow, Apptainer, HPC.
- 🔧 **Software:** RStudio, SPSS, Visual Studio Code, Google Colab, GitHub, Wolfram Mathematica, Gephi, VirtualBox, Jamovi, Microsoft Office, Microsoft Azure, Adobe Suite, DaVinci Resolve, Canva.
- 💻 **Operating Systems:** macOS, Windows, Ubuntu, Guadalinex.

VOLUNTEERING

- Social and Cultural Events Organizer** Jun. 2024 – Aug. 2024
European Solidarity Corps & Associazione Kora (2 months) Passignano sul Trasimeno, Italy
- **Organization of events** in an **international environment** to foster **cultural exchange**.
 - **Environmental education** and workshops on **sustainability**, food awareness, and European traditions.
- Fundraising Project Developer** Nov. 2022 – Jun. 2023
Fundación Escuela de Solidaridad (8 months) Sierra Elvira, Spain
- **Design of creative fundraising campaigns** and solidarity markets to support vulnerable populations.
 - **Provision of direct educational support** to residents and community awareness through social media.

COURSES AND CERTIFICATIONS

- Nextflow Core & Advanced Training Certificate** May 2026
Seqera Online
- C1 Certificate in Italian Language (CELI 4)** Nov. 2024
Università per Stranieri di Perugia Málaga, Spain
- MOOC in Machine Learning and Big Data for Bioinformatics** May 2024
University of Granada Online
- RBG Master in Photography and Videography** Feb. 2024
RBG School Online
- B2 Integrated Skills in English (ISE II)** Oct. 2021
Trinity College London Beas de Segura, Spain
- Driving License (B)** Sep. 2020
Spanish Directorate-General for Traffic Úbeda, Spain

PROJECTS

- MSc Thesis - GenoScribe: Intelligent Bioinformatics Reporting System** Apr. 2025 – Dec. 2025
University of Granada & IPBLN - CSIC (Grade: 9.5/10) (8 months) Granada, Spain
- Design of a **modular tool** for **automated** and **interactive reports** in **omics pipelines**.
 - Integration with **Quarto**, **R**, **HTML**, **CSS**, **Apptainer**, **Docker**, and **cloud platforms**.
 - **Data visualization** and **automatic summarization** through **NLP (Python & JavaScript)**.
- BSc Thesis - Six Sigma Methodol. for Product Quality Improvement** Dec. 2022 – Jun. 2023
University of Granada & El Olivar Bakery (Grade: 9.78/10) (7 months) Granada, Spain
- Analysis of the **Six Sigma methodology** and its **application** to enhance quality in organizations.
 - Implementation via the **DMAIC process**, improving quality from 2σ to 5σ .
 - Conclusion: combining **Six Sigma** with **Lean Manufacturing** boosts **efficiency** and **profitability**.

ACHIEVEMENTS

- **Monograph Publication:** Final Thesis selected and published as a technical book on **Six Sigma Method**.
- **Academic Excellence:** Outstanding academic record in Statistics, ranking at the top of the promotion.
- **Talent and Leadership Chair:** Official recognition among the **top 20 academic records** at the UGR.
